## HSH3500PILO

# Lamps for Photolithography

#### Description

PerkinElmer Optoelectronics is a leading manufacturer of mercury short arc lamps ranging in output power from 1000 to 8000 watts. These lamps are used in the production of printed circuit boards, liquid crystal displays and semiconductors. The HSH Series lamps are used worldwide in microlithography systems manufactured by ASML, Canon, GCA, Nikon, Karl Suss, Ultratech Stepper, and SVG. With extremely high stability, uniform output distribution and extended lamp lifetimes, the HSH Series has become the lamp choice of many of the world's leading semiconductor manufacturers.

PerkinElmer has been a leading manufacturer of high intensity arc lamps for more than 30 years and is a premier lamp supplier for solid state lasers, medical equipment, NASA space systems and microlithography. PerkinElmer has steadily advanced lamp performance from 1000 watts to 8000 watts. With the introduction of new materials and proprietary manufacturing processes, we have extended lamp lifetimes form several hundred

hours to more than two thousand hours. The HSH Series provides longer lifetimes, outstanding uniformity, and excellent spectral quality which results in increased throughput, reduced downtime and an overall reduction in the cost of ownership.

### **Applications**

· Microlithography

#### HSH3500PILO

#### **Operational Specifications**

Description Nominal Range

Power 3500 watts

 Current
 152 amps (DC)
 135-175 amps (DC)

 Voltage
 23 volts (DC)
 20-26 volts (DC)

Current Ripple 3%

Temperature (at base) 220°C (max) Lifetime 1500 hours

#### **Physical Specifications**

DescriptionSpecificationArc Gap4.5 mm (max)Anode Base40 mm Dia (M6)Cathode Base32.5 mm Dia (M12)

#### **Dimensions**

#### **Notes**

 Lamp must be operated with anode end up and cathode end down. Inclination of lamp axis to vertical must not exceed 10°.

#### Part Number References

Used In ASML 5500 / 200B, /250C

Replaces SUV-3500-PIL HBO-3500-W/PI

PerkinElmer welcomes inquiries about special lamps. We would be pleased to discuss the requirements of your application and the feasibility of designing a lamp specifically suited to your needs.
